

Patience Simuli Simiyu,
Epic Heights,Waiyaki Way,
Nairobi, Kenya.

The Human Resource Manager,
One Acre Fund.

DearSir/Madam,

RE: Application For The Data Analyst Position

My multi-domain Data Analysis skills and values make me an excellent match for the data Analyst position at your company. While most of my experience has been at telecom companies, I have dealt with a lot of geospatial data, using it for customer value management and targeting optimization plans.

Continual growth, hard work, humble service, leadership, integrity, and drraming big are at the center One Acre Fund's mission to improve food security in the region, values which I deeply resonate with.

I look forward to hearing from you.

WarmRegards,

PatienceSimuliSimiyu.
